## The exhibition of the Italian classic motorcycles by Stuart Parr in Miami

By Staff

Many people have earned a fortune on TV and the film industry. Jay Leno, working on television, collected huge capital, as well as a great collection of cars and motorcycles. Another example is Stuart Parr (a famous architect, surfer and motorcyclist, producer). He became famous for his works on the movies "8 Mile" and "Get Rich or Die Tryin'."

### ART OF THE ITALIAN TWO WHEEL

Stuart Parr gathered a unique collection of motorcycles and decided not to hide it from the public eye.

The new exhibition "The Art of the Italian Two Wheel" is presented in Miami and consists of 35 Italian motorcycles. You can also estimate it on the website of Parr (site is without a certificate, so the search engine can warn about the risk).
